

Letter of Intent
Distribution
Overtime Boundaries

The attached Call-Out Overtime Boundaries Matrices are to be used by the Power Systems, Distribution Business Unit. The intent of these matrices are to provide each local Service Center, Dispatch Center, etc. with the agreed upon methodology for the use of Bargaining Unit personnel prior to the utilization of contractors in the following situations:

- Call Out
- Afternoon Storm
- All Hands on Deck

Prior to calling contractors to work overtime in a Service Center's boundary, the eligible employees from the corresponding Service Center(s) on the matrix must be offered the overtime assignment. This is a minimum guideline and does not preclude the calling of employees from additional service centers as necessary.

J.L. Martinez
Director, Labor Relations
Florida Power & Light

7/26/06
Date

Gary Aleknavich
Business Manager
System Council U-4, IBEW

Δ = NO change in ^{IBEW} 1191

* = ADDITIONAL Agreed upon SVC CTRS
(could be 627, ^{IBEW} 759)

SERVICE CENTERS posted ARE AT A "minimum" AND
NOT necessarily in priority order
